Bugfixes

<table>
<tr><td style="vertical-align:top">INFORMATION</td></tr>
<tr><td>

When opening a project with the new version (2019-20.22), projects of the directly previous version (2019-20.21)

are converted and can no longer be opened with the previous version
    [ ] Single-User
    [ ] Multi-User

are not converted and can still be opened with the previous version
    [x] Single-User
    [x] Multi-User

COM Registration
[x] the COM library has been changed and should be registered again
    (start the program as ADMIN using „E3.series.exe /register")

</td></tr>
</table>

The bug fixes are sorted and listed by designer number(s). This enables you, for example, to easily search for bugs reported to our support office.

Designer-03632	Problems when modifying shield symbols
Designer-12155	Error message 'Error in function grant_component(), ret = 11' appears after message 'W - No current version of symbol x found' when editing a component in DBE
Designer-19852	COM function 'Dev.UnplacePanel' gives return value '1' even if the model couldn't be deleted
Designer-34045	Incorrect order of terms at bidirectional Arabic texts
Designer-35287	Incorrect handling of structure node attributes for fields when moving within the structure
Designer-35855	COM-Call Tree SetSortingMethod does not set info column in structured tree correctly
Designer-36019	COM: The scale factor of sym.PlacePins has no effect
Designer-36026	DBE: The value of symbol graphic (e.g. unchangeable or dynamic) is not displayed when calling symbol properties from database tree and symbol is not loaded in database editor
Designer-36040	If you configure an alternative name for components in the database tree structure, they will not be displayed if you activate 'Show all attributes'
Designer-36130	Internal errors might appear after reading a 'e3d file'
Designer-36149	Terminals can get the same pin name with "F2" on a panel sheet even if the setting "unique pin names" is defined
Designer-36156	Probably bad performance with command 'Jump to device tree'
Designer-36157	Performance when placing a symbol from device tree might be slow
Designer-36161	Additional checks before creating the new table OUTDATED in the language database
Designer-36189	The active mating connector is not displayed in the connection target -

	Setting the Connection Target format
Designer-36194	Updating components in a specific project gives error messages and creates a 'dmp file'
Designer-36239	If there is an empty folder in the database tree tab 'Misc' as a sort criterion, an incorrect number is displayed in the info column
Designer-36251	Command 'Save as' with option 'Save actual configuration without variants/options' might generate an error
Designer-36256	Core/wire logic lines are shown to a splice even if the core/wire only passes the splice
Designer-36266	Signal names with Cyrillic characters can't be changed
Designer-36318	Bundle symbol is not adapted automatically when moving a connection
Designer-36347	Size of bundle symbol might not be changed automatically according to the new position of the connect line
Designer-36354	Net segment length might change when moving a connect line
Designer-36376	Unplace pins might be marked as 'plugged' after importing (old) sub-circuits (reason: sub-circuits with errors)
